

Music Production for 5-11 year olds

Producing music is fun, creative and excellent at developing teamwork skills. From creating rhythms to cutting a track, music production can make a fun workshop for the end of term or an ongoing music club.

Our courses cover Key Stages 1, 2 & 3 in Speaking & Listening objectives in English.

Skills

Your students will learn skills in:-

- ✓ Writing lyrics: syllables, rhymes and meaning
- ✓ Creating beats & melodies
- ✓ Recording a track in a recording studio
- ✓ Mixing tracks on a computer
- ✓ How pop songs are made

After School Music Club

What makes a good pop song and how do you mix a track? This weekly workshop looks into all aspects of music production. We will also work towards end-of term of listening or live performances.

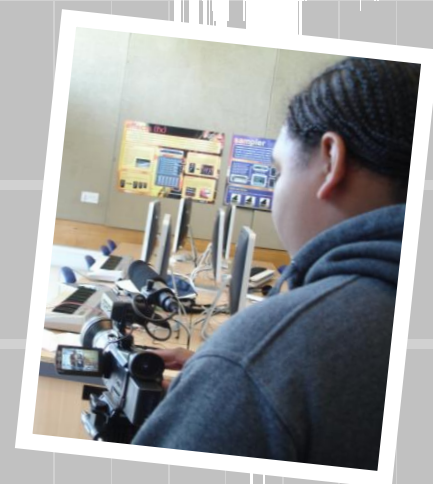

Make a song in a day

Children work in groups to write lyrics and help construct a melody before recording and mixing their track in a music studio – all in a day! The result will then be made into their very own demo CD.

Other workshops

We specialise in coming up with creative ways to make learning fun through the mediums of radio, video and music.

If you have a school play or special event, we can train your students to capture it for your website. Please contact us for more information.

Learning

- ✓ Ignite tailors each course to suit your specific learning objectives
- ✓ Courses can be delivered on the school premises or at a local studio
- ✓ Courses can be tailored as short or long courses - from 1 day to a term

Ignite Creative TV is a creative content production company making web, mobile, video and radio material. Our clients include music and entertainment companies, youth platforms, broadcast networks and educational and government websites.

We also run courses in radio production & presenting, video production & editing and music production. Our courses are customised for specific groups depending on age group, ability and the specific objectives of the group.
