

Music Production for young people

From writing lyrics to cutting a track, students produce a song and learn how to market it professionally.

Our courses cover Key Stages 3 & 4 in Speaking & Listening objectives in English and can be OCN-accredited.

Skills

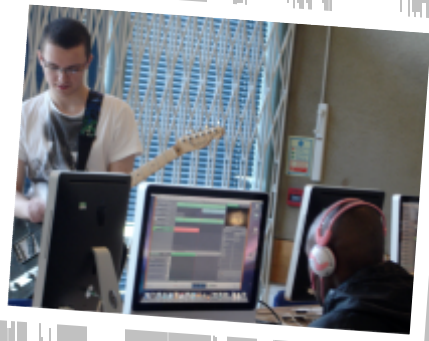

Your students will learn how to:-

- ✓ write lyrics
- ✓ create beats and melodies
- ✓ record a track in a recording studio
- ✓ mix tracks on a computer

Workshops

Students work in groups to write lyrics and help construct a melody before recording and mixing their track in a music studio!

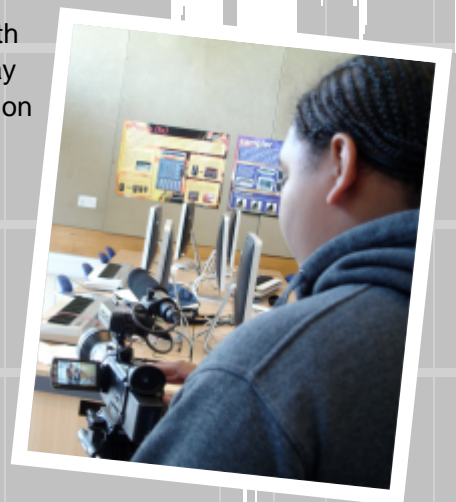

The result will then be made into their very own demo CD.

Courses

What makes a good pop song and how do you mix a track? This weekly workshop looks into all aspects of music production – including how to market the finished piece.

The culmination is a meeting with a music industry executive – play your track and take their advice on board...

Other Workshops

We specialise in coming up with creative ways to make learning fun through the mediums of radio, video and music.

We can set up and maintain a radio or video channel on your school's website. Please contact us for more information.

Learning

- ✓ Ignite tailors each course to suit your specific learning objectives
- ✓ Courses can be delivered on the school premises or at a local studio
- ✓ Courses can be tailored as short or long courses - from 1 day to a term

Ignite Creative TV is a creative content production company making web, mobile, video and radio material. Our clients include music and entertainment companies, youth platforms, broadcast networks and educational and government websites.

We also run courses in radio production & presenting, video production & editing and music production. Our courses are customised for specific groups depending on age group, ability and the specific objectives of the group.
